

OVERVIEW:

The EDCC's Regional Economic Development Forums are designed to look at our communities across the state and learn what attributes they have and what challenges they face. The challenges of one community can be very similar to that of another. This is an opportunity for us to come together as a state-wide organization and gain knowledge of these issues, acquire tools and resources to implement in our communities, and to better the economy as a whole. Topics range from infrastructure, small business development, workforce challenges, economic resiliency and more. The one-day forums will also provide a platform for the hosting community to showcase successful economic development initiatives and provide lessons learned to attendees.

CONFERENCE ATTENDEES REPRESENT:

Hosting community: local leaders and businesses, government agencies, non-profit organizations, universities and community colleges

State-wide: cities from across the state, businesses and corporations, non-profit organizations, government agencies, universities, community colleges and more
