Meridith Marshall

Infrastructure Coordinator

Colorado Office of Economic Development & International Trade

There are approximately 200 IIJA programs applicable to Colorado

70 of those are available to local governments

All together, we have the potential to receive $4.1 billion to $7.1 billion in funding.

COLORADO

Programs Available to Local Governments

Airports
Broadband
Electric vehicles and buses
Environmental
Power and the grid
Passenger and freight rail
Public transit
Resiliency
Roads and bridges
Safety and research
Water

COLORADO

The Issue

Capacity has been a longstanding issue impacting many of Colorado's communities for years.

These capacity constraints have only been exacerbated by COVID-19 and the various funding opportunities made available to support recovery efforts. With ARPA and IIJA funding becoming available, communities will be further constrained in their ability to access this much needed federal funding. This could lead to missed opportunities to fund projects across Colorado communities that would benefit local infrastructure for years to come.
